CaDRiTool

for DRR Capacity Diagnosis and Planning

A brand new digital tool to **support Governments, UN Country Teams experts and the Global DRR & CCA Community** identify integrated solutions to tackle climate and disaster risk across various sectors through a participative and inclusive process.

PURPOSE

Guide assessors and planners to apply an **analytical frame to assess capacities to manage DRR/CCA** that is relevant to the country context.

A TOOL FOR WHAT?

National Planning:
Develop national DRR/CCA strategies

Identify entry points for risk reduction
in national development plans

Joint UN
Programme

Inform national
contingency planning

DRR/CCA
in UN-CCA/UNSDCF

Joint UN
funding proposal

MAIN DIGITAL FUNCTIONALITIES
