**Key Take-aways**

- Digital and mobile solutions are key for resilience building but rural women are left behind in the digital revolution.
- Need for better access to formal agricultural credit and insurance, as well as weather and agricultural advisory services.
- Rural women face barriers related to literacy, gender and cost that hinder access to technology, formal finance and markets.
- Innovative partnerships to enable tailored and gender-sensitive policies and innovations for rural women’s resilience.

**Vision and Goal**

Making rural women more resilient to climate change and disasters.
