

Learning Lab

6 June - 10:00am – 11:30am - Lausanne room, CICG

Room capacity 94pl - Room format: theatre.

1. Focal Points:	Muhibuddin Usamah musamah@wmo.int Erica Allis eallis@wmo.int Maria Lourdes Kathleen Macasil mlkmacasil@wmo.int Yi Wang ywang@wmo.int Kara Siahaan ksiahaan@wmo.int , kara.siahaan@gmail.com
2. Title or topic of learning lab:	Delivering early warning to everyone: People centered and gender-responsive approaches
3. Alignment to Sendai Framework:	<input checked="" type="checkbox"/> Priority 1- Understanding disaster risk; <input type="checkbox"/> Priority 2- Strengthening disaster risk governance; <input type="checkbox"/> Priority 3- Investing in disaster risk reduction; <input checked="" type="checkbox"/> Priority 4- Enhancing disaster preparedness for effective response and to build back better.
4. Briefly specify the activity and how it helps to accelerate the Sendai Framework:	<p>Objectives:</p> <ul style="list-style-type: none"> - Support stakeholders to better understand and implement early warning systems, ensuring that warnings reach the most vulnerable populations - Aid in stakeholders' understanding of the key elements that enable people-centered early warning systems across the following building blocks: <ul style="list-style-type: none"> o Identifying and engaging actors (building block 1) o Co-creating a collaborative design process (building block 2) o Co-exploring, co-developing, and co-delivering solutions (building block 3) - including impact-based forecasting for anticipatory action o Capacity building and learning (building block 4) o Monitoring and evaluation (building block 5) <p>Format:</p> <ul style="list-style-type: none"> - Hands-on training, simulation and learning from actual experiences on how to implement people-centered early warning, translating early warning to life-saving actions - Learn from tools and approaches to actively engage stakeholders in the design and implementation of early warning systems – women, children, youth, elderly, persons with disabilities, etc. <p>A fishbowl session where we will hear diverse perspectives around the people-centred EWS building blocks from government, local actors and representatives from disproportionately impacted groups.</p>

	This session will contribute to Global target G: Substantially increase the availability of and access to multi-hazard early warning systems and disaster risk information and assessments to the people by 2030.
5. Main target audience:	DRR practitioners and advocates of people-centered and gender responsive approaches to early warning
